David Kim

Full Stack Web Developer / Software Engineer

347-609-2592 | dhskim22@gmail.com | New York, NY | LinkedIn | GitHub | Portfolio

TECHNICAL SKILLS

JavaScript, Python, React, Redux, SQL, SQLite3, Sequelize, Git, jQuery, postgreSQL, Flask, Express, Node.js , HTML, CSS

PROJECTS

SkyBnb   **Live | GitHub Repo**

A web app inspired by Airbnb, built with React, Redux, Express, Sequelize, JavaScript
- Utilizes react/redux to efficiently manage and control state specific to user interactivity on every page.
- Creates a user friendly design to be easily navigated

Asante   **Live | GitHub Repo**

A project management app based off Asana, able to create multiple project boards and create sections and tasks to be well organized for success
- Implemented react-dnd to be able to "drag and drop" any sections or tasks while persisting the sequence
- Worked in a pair to handle the back-end routes as well as managing the redux store state.

NotTaut   **Live | GitHub Repo**

A collaborative communication platform referenced by Slack, built with, React, Redux, Flask, SQLAlchemy, Python, JavaScript
- Utilizes react/redux to efficiently manage and control state specific to user interactivity on every page.
- Implemented Live-chat messages using websockets for users to communicate in real-time

WORK EXPERIENCE

Assistant General Manager | BB.Q Chicken USA, NYC K-town   Jul 2021 - Oct 2022

Manager of a fast-paced take-out/dine-in Korean fried chicken restaurant.
- Oversaw and effectively manage a team of employees, ensuring smooth operations and optimal performance across all departments, including front of house, kitchen, and bar.
- Closely monitored team members performance and providing guidance and support as needed to ensure high standards of quality and service were consistently met.

Warehouse Associate | Giant Foodsystem, Newark NJ   Mar 2020 - Jan 2021

Work on daily orders for deliveries and organizing pallets in order to optimize mobility.
- Consistently communicated and collaborated with team members resulting in efficient operations and minimized delays.
- Maintained a high level of organization and inventory accuracy for over thousands of frozen goods, utilizing inventory management systems to track stock levels, conduct regular stock checks, and facilitate replenishment processes.

EDUCATION

App Academy   Dec 2022 - Jun 2023

Suny Polytechnic Institute of Technology | Computer Information Science   Sep 2018 - May 2019
